SUMMARY

Software Developer with 2+ years of experience and a Master's in Big Data Analytics. Proficient in developing data-driven solutions using React, TypeScript, Next.js, Node.js, Python, SQL, and MongoDB. Passionate about web development and AI.

EDUCATION

05/2023 - 08/2024 **Trent University** - *Masters of Science in Big Data Analytics* **Peterborough, ON**
11/2017 - 12/2021 **University of Lagos** - *BSc Accounting* **Lagos, Nigeria**

EXPERIENCE

Inbound Sales Agent

1-800-GOT-JUNK? Toronto, ON, Canada 10/2024 – 02/2025

- Delivered tailored solutions to meet customer needs, consistently exceeding sales targets.

Teaching Assistant / Student Marker

Trent University Peterborough, ON, Canada 01/2024 – 04/2024

- Supported graduate students in learning advanced data analytics tools, achieving improvement in performance.
- Guided students through the installation and usage of various applications and databases, including Docker containers, MongoDB, SQL, and Cassandra.
- Evaluated and provided feedback on assignments to uphold academic standards.
- Explained key Big Data concepts and demonstrated the use of Python, PySpark, Hadoop, and Apache tools for large-scale data processing.
- Graded student scripts and marked their projects, providing detailed feedback to enhance their understanding of course concepts.

Junior Developer

Innovation Associates Nigeria Ltd Lagos, Nigeria 04/2022 – 03/2023

- Developed and maintained user interfaces using React, TypeScript, and Next.js, enhancing website user engagement by 15% through interactive features and optimized designs.
- Utilized React and Next.js best practices (component reusability, server-side rendering) to ensure code maintainability, performance, and scalability for future development.
- Employed TypeScript to enhance code quality and prevent errors, contributing to a more robust and reliable frontend application.
- Participated in code reviews and sprint planning sessions, contributing to a collaborative and efficient development environment.

TECHNICAL SKILLS

Python, JavaScript, TypeScript, Node.js, Next.js, React, HTML, CSS, Tailwind, SQL, MongoDB, Docker, Git, AWS

INTERESTS

Continuous learning, art, DIY projects, recreational programming, games, reading, Artificial Intelligence
